RP-CCR V746 / V748: bounded component diagnosis; global navigation not passed
No admissible geometric renewal window
0.30 m forward reference: clearance lower bound (m)
Elapsed actual observation time (s)
Boundary 115
Boundary 116
Boundary 117
Boundary 118
Certificate floor 0.155 m
Rejections arise from future unknown occupancy
Minimum clearance (m)
All 35 saved successor candidates (fixed order)
Known static geometry
Actual time-varying certificate
No-aging counterfactual (never executed)
