V982 component 0: NOT PASSED — saved-state diagnosis, no rerun
Position follows closely: maximum error 2.66 mm
Committed reference
Actual native trace
Guard requests stop
y displacement (mm; expanded scale)
x from reference start (mm)
Heading error continues to grow during stopping
Nearest-reference heading error (degrees)
New-branch simulation time (s)
Actual heading error
Original 0.035 rad limit
Stop request at 1.30 s
Recorded finite stop tail
