V676–V678: actuator-consistent navigation and algorithm-versus-scene diagnosis
Same physical scene; recorded center paths
Full sweep
(evaluator only)
y (m)
x (m)
Privileged witness is a separate diagnostic
Goal distance (m)
Simulated time (s)
V676 causal
V677 privileged
V678 causal
Strict arrival threshold
Same successful poses; different information
Future pose-sample clearance lower bound (m)
Recorded privileged trajectory step
Causal uncertainty gate
Known full-sweep geometry
Original admission floor
